Dear Don:

I have enclosed a draft Amendment in response to the outstanding Office Action in the above-identified application. Please review the draft and let me know if you have any comment or addition before the October 24, 1984 due date.

In addition, please inform us of any art or information other than that cited in the June 6, 1984 Statement Under 37 C.F.R. §§ 1.56 and 1.97 that you or the inventor believe there may be a "substantial likelihood that a reasonable examiner would consider...important in deciding whether to allow the application to issue as a patent". Please also inform us of any additional art cited in the prosecution of non-United States applications which claim priority from European Patent Application 82100112.

With best regards.

Very truly yours,

Margaret Ann Pierri
